

Right now, a bit...

Here's how I usually enter search terms into Google . . .

A     B (Related words)

specifically...

The search term is...

①A   B                      →Enter B with a space after A

②AB                         →Continuous input

And many more...

I'm learning a lot from this and I also use it a lot on YouTube.

(This is a convenient method for many purposes.)

(1) Are you still active?

I know it was rude of me to post it on YouTube yesterday, but since I didn't use any specific proper nouns, I think it's okay to use it as a joke...

A story about a man in his 70s who asked his wife for sex, but was rejected and can no longer sleep with her...

Hmm...?

I read an article in medical terms that said that this also declines as we get older...

(2) This is absolutely not okay

I haven't checked if this actually happened, but I saw a TV drama some time ago where a nurse was touched on the butt by an elderly man who was hospitalized, and I felt sorry for her.

She could be sued for sexual harassment... but if there were multiple cases like this, I would have to pay the hospital fees... just kidding...
