What if you have to do it all by yourself like me?

By tone of voice...

- ① The first line disguised as the voice of a female call center employee

- ② " Thank you for taking care of the other person" disguised as the voice of a male superior in a complaint situation

If we just take care of illnesses, we won't die of old age, and instead, our children may end up receiving the "first half of the \*\*\* birthday gift"...

They'll die of old age...

A reality that defies common sense in biology,  
"\*\*\* birthday gift" from the government  
"Substitute" for several generations,  
and in the end, we might end up with "This will be the last time for Mr./Ms. ~, and from next time onwards you will no longer be eligible, so we'll just have to ditch you"

If we push continuity to the limit, this is what we'll end up with...
